Aptitude

Aptitude tests the problem-solving skill of students. It plays a major role in any field you enter either academic or corporate. Aptitude tests are used to determine an individual ability/potential to succeed in a certain task. The good thing about aptitude tests, besides the fact that they are a great way of improving your thought processing and memory skills.

Major Sections

Soft Skills

In the 21st century, soft skills are a major differentiator,an indispensable and essential quality for employability and success at the workplace. Strong soft skills ensure a productive, collaborative and healthy work environment, all vital attributes for organizations in an increasingly competitive world.

Soft skills refers to personal attributes that enables an individual to interact effectively and harmoniously with other people. Soft skills include any skill that can be classified as a personality trait or habit. These can include social graces, communication abilities, language skills, personal habits, cognitive or emotional empathy, time management, teamwork and leadership traits. We also train candidates with the skills required to face interview and group discussion.
